

## THE CHOICE IS MINE

Here are the lyrics for a female vocal.

[VERSE]

I tried to shield you from the storm,  
Kept you safe, kept you warm.  
But I see now, the light in your eyes

You're ready to rise.  
I held on too tight, thought love was  
control,  
But love is the wind that makes a  
soul whole.  
And though I was wrong to dim your  
shine...  
I see your power, and now it's time.

What if I fall?  
What if I break?  
What if the road is the wrong one to  
take?  
But I won't let the fear make the  
call...  
If I fall, I fall standing tall.

Then you learn.  
Then you grow.  
You find a strength you didn't know.  
And even in doubt, even in pain...  
You rise again.

[CHORUS]

I am ready, I am strong,  
I've been becoming me all along.  
No more hiding, no disguise,  
This is my truth — and I won't  
compromise.  
I am not afraid to shine,  
The choice is mine.

[VERSE]

Not fear. Not anger.  
Not what she wants for me.  
I choose the future I believe in —  
I choose who I'll be.

[FINAL CHORUS]

I am ready, I am strong,  
I've been becoming me all along.  
No more shadows, no more lies,  
Love will light the darkened skies.

I will not be redefined,  
The choice is mine.  
Yes — the choice... is... mine.
